BAILEY'S TEAM for AUTISM is a non-profit organization raising funds and awareness in support of individuals living with autism spectrum disorders and their families, with a focus on programming, education, and research.

At least 1 in 36 children will be diagnosed with an autism spectrum disorder this year!

BAILEY'S TEAM FOR AUTISM

Autism is a complex lifelong disability that can impact a person's ability to communicate affecting social skills, relationships, and learning.

In September of 2001, shortly after Bailey was diagnosed with autism, our family participated in the first *New England Walk for Autism*. We invited our family and friends to join us at this special event and because of the outpouring of love and support felt by our family on this bittersweet day, we were inspired to form BAILEY'S TEAM.

BAILEY'S TEAM was incorporated in 2008 and has gone on to raise over \$1.4 million in support of education and training, services and programming, research, awareness, acceptance, and family support.

We strive to make a positive impact on individuals living with autism spectrum disorders and their families. It is important that we educate our community about our loved ones with autism and the need to value and support them!
